CAFETERIA IN DOT HEADQUARTERS BUILDING

As mentioned in the last edition of Southwest Seventh, DOT took a strong stand on the need for provision of eating facilities for the employees in the Headquarters Building after Drug Fair stated their intention to close. GSA has contracted with Drug Fair to continue in operation.

In order for DOT to work with GSA regarding improvements in the cafeteria operation, we would like to have your constructive suggestions to present to them. What would you like for lunch? Soup and sandwich combination specials to change each day of the week? Food of a different nationality for each day of the week? If you're on a diet, maybe you would prefer a variety of dieter's specials for each day. What is your favorite dessert? Beverage? Sandwiches made to order (hot and cold delicatessen line)? Your additional comments pertaining to breakfast suggestions, hours of operation and any other constructive suggestions will be welcomed.

Please jot your ideas on the reverse side and mail to TAD-47 before Monday, September 27.

TO: Buildings Engineering and Design Division, TAD-47
