VANPOOLS NOW FORMING

More than 400 DOT employees responded to the vanpool interest survey distributed May 31, 1977. As a result of the survey, seven meetings have been scheduled to organize vanpools among prospective riders from several residential areas throughout the Washington metropolitan area. Commuters from these areas who did not respond to the vanpool survey have another opportunity to learn more about vanpooling by attending the appropriate meeting listed below.

Vans suitable for vanpooling will also be on display as follows:

Monday, August 29, 11:00 a.m. to 1:00 p.m., DOT Nassif Building (E Street side)

Tuesday, August 30, 11:00 a.m. to 1:00 p.m., in front of FOB-10A (Independence Ave. side)

In a vanpool, up to 15 persons can share the cost of commuting to work. Depending on the location of participants, riders may be picked up at home or meet the vanpool at a prearranged location.

If you have any questions or would like additional information about vanpooling, call Steve Baluch, extension 60210.
