## DEPARTMENT OF TRANSPORTATION HEADQUARTERS BUILDINGS

No. 156

SPECIAL EDITION

January 12, 1977

### JAYWALKING

Risking your life, and that of others, in order to save walking a few steps to the crosswalk is a very foolish gamble. Jaywalking is never wise, but in this winter weather when streets are slippery and visibility is low it is especially dangerous. Take an extra minute. Use the crosswalks and obey the traffic signals. Don't risk a long hospital stay for such a short time savings.

### DOT GARAGE OPERATION ON INAUGURATION DAY, JANUARY 20th

DOT Headquarters Building and FOB-10A garages will be open on Thursday, January 20, on a park-and-lock basis. The Trans Point Building garage will be closed.

### CLEAR YOUR CAR OF SNOW

The DOT garages have been inundated by the heaps of snow carried in on the cars. The huge puddles are not only unpleasant but leak through to lower levels and cause problems below. So give your car the full "brush off" before coming to work. It makes for safer driving, too!
