CAV Support Services
Equipment Loan and Service Desk

Equipment Loan Program

This service provides a connected and automated vehicle (CAV) user with the opportunity to become familiar with the types of equipment typically used in connected vehicle deployment. Equipment loans can include roadside units, onboard units, and diagnostic tools.

CAV Services

- Roadside unit equipment loans.
- Onboard unit equipment loans.
- Dedicated Short Range Communications (DSRC) device configuration support.
- Map and Traveler Information Message (TIM) tool application.
- Device testing support.
- Vehicle-to-Infrastructure (V2I) implementation support.
