EXPERIMENTAL PRODUCTS EVALUATION PROGRAM: ANNUAL REPORT

BACKGROUND

Rapid implementation of new technologies and products is an important component of an efficiently managed transportation system. The Experimental Products Evaluation Program (EPEP) is an ongoing program established by the Office of Research to provide The Oklahoma Department of Transportation (ODOT) with a means of evaluating, monitoring, and implementing the use of new or experimental products. This report gives the status of products evaluated, pending evaluation, or under evaluation by ODOT during the last five years.

Certain restrictions apply to the use of new products on ODOT projects. If the project includes federal funds, special provisions and an evaluation work plan must be developed and approved.

CLASSIFICATION OF EVALUATION STATUS

The status of each product evaluation is classified as follows:

Pending	The evaluation has not yet begun or has been delayed.
Under Evaluation	The product is currently being evaluated.
Accepted	The evaluation is complete and the product met the evaluation criteria. This does not guarantee approval by ODOT or the FHWA for general use.
Not Accepted	The evaluation is complete and the product failed to meet the criteria under which it was evaluated.

SUMMARY OF ANNUAL PROGRESS

For the year 1996, there were 31 products under evaluation. Five product evaluations were completed in 1996 and the results of these evaluations are given in Table 1. Those remaining under evaluation are listed in Table 2. The products evaluated by the EPEP are kept in the "current" database for a minimum of five years after completion of the evaluation. Pages 5 through 33 consist of a listing of the 115 products in the database at this time.

Table 1. Evaluations Completed in 1996.

Product RD No.	Product Name and Type	Result	
		Accepted	Not Accepted
5102	Omni-Flex Pipe Joint Seals	X	
2549	Dow Corning 902 RCS: Silicone Joint Sealant	X	
2549	Silspec 900 PNS: Modified Asphalt Patching Material	X	
2549	XJS: Bridge Expansion Joint System	X	
2553	Extrudamat: Fiber reinforced Asphalt Patch Material	X	

Table 2. Products Under Evaluation in 1996.

Product RD No.	Product Name	Product Description
1020	Fossrock Patchrock 1060	Quicksetting adhesive material for dowel bar retrofit.
3310	CRS-2S	Polymer modified asphalt used as crackfiller and sealer.
1008	Novophalt	Polyethylene polymer additive for asphalt.
3307	Over-Flex	Rubberized asphalt.
2554	Pavetech Bridge Deck System	Expansion joint system for bridge decks.
2549	XJS System	Expansion joint system for bridge decks.
2542	Over-Flex MS	Rubberized asphalt crack filler.
2504	Willseal	Precompressed, self-adhesive foam sealant.
4908	Hydro-Stik	Polypropylene fabric for soil stabilization.
2829	Roadpatch	Quicksetting PCC with glass fiber reinforcement. Used for patching.
2549	Silspec 900 PNS (component of XJS System)	Polymer modified AC binder which mixes with flint aggregate to repair bridge joints and faces.
2714	Sinmast Mortar Mix Resin	Patch material.
2830	Surface Magic	Polymer modified mortar for PCC repair.
2832	Sikapronto 19	Methacrylate PCC patch and seal material.
2718	Sylcrete 10 Minute Concrete Mender	Two part PCC patching material.
2719	Sylcrete 10 Minute Flexible Cement	Two part PCC patching material.
2720	Sylcrete 10 Minute Crack Sealer	Two part crack sealer for PCC.
4970	Phillips Pro-Guard	Flexible strip membrane applied over cracks before overlaying.
4969	Bitutex	Fabric reinforcement with polyester gridwork to provide additional resistance to cracking.

Table 2. Products Under Evaluation in 1996 (continued).

Product RD No.	Product Name	Product Description
2329	Darex Corrosion Inhibitor	Corrosion inhibitor. Added to concrete mix.
2409	Thoroclad	Primer for clean or rusted steel surfaces.
4901	Fibergrids	Polypropylene fibers used to reinforce subgrades and increase slope stability.
2302	Rust Grip	“Moisture cured” urethane structural paint.
2304	Alumaclad	Water-borne aluminum powder” structural paint.
2303	Alumanation	Aluminum powder-type structural paint.
1013	DuPont 25P	Structural paint.
1012	Rustbond Universal sealer	“Moisture cured” urethane structural paint.
2166	Infrared Asphalt Heater	Infrared asphalt heater for patching and corrective work.
2031	Polytok	Elastomeric waterproof membrane.
2017	Royston Bridge Membrane No. 10	Preformed, fiberglass reinforced, asphalt waterproof membrane.
