

Do you get regular deliveries for your building? We want to hear your thoughts!

Delivery drivers often struggle to find safe and legal parking in the city, making it hard to get to buildings like yours. We're working to improve commercial vehicle parking to make it easier for people to deliver goods promptly and efficiently, which will save time and money for both drivers and building managers. The first step is understanding your needs and delivery experiences.

Would you be willing to share your thoughts and experiences with us?

We will talk about ...

- The types of deliveries your building receives
- Where delivery drivers currently park
- What's working well in terms of getting deliveries and what challenges you face
- Ideas for improving commercial vehicle parking

This conversation will take about an hour, and we will provide a \$100 Visa gift card to honor your time. What you share will help shape future parking options for people making deliveries to buildings like yours.

Share your thoughts to improve
delivery vehicle parking and earn \$100
