| 16. ABSTRACT<br><br>This is a listing pertaining to the status of the research evaluation of products and equipment which may possibly be used in highway construction or maintenance by the Oklahoma Department of Transportation.<br><br>Products and equipment are continually being evaluated and implemented into use by the Department. The status of their evaluation therefore is continually changing as progress is made. Products and equipment that are accepted by research evaluations are recommended for consideration for use by the Department. |  |                                                      |  |                                                                                     |  |

Annual Report

January, 1988

The contents of this report reflect the views of the author who is responsible for the facts and the accuracy of the data presented herein. The contents do not necessarily reflect the official views of the Oklahoma Department of Transportation or the Federal Highway Administration. This report does not constitute a standard, specification, or regulation. While company and product names are used in this report, it is not intended as an endorsement.

## INDEX

| <u>PRODUCT TYPE</u>                                       | <u>PAGE</u> |
|-----------------------------------------------------------|-------------|
| Adhesives .....                                           | 1           |
| Bituminous Materials and Additives .....                  | 2           |
| Bituminous Rejuvenators and Preservative Treatments ..... | 6           |
| Barriers, Fencing and Roadside Structures .....           | 7           |
| Culverts and Drainage Structures .....                    | 9           |
| Deicing Chemicals .....                                   | 10          |
| Joint Sealers and Fillers .....                           | 11          |
| Mulch and Erosion Control .....                           | 15          |
| Miscellaneous .....                                       | 21          |
| Paving Fabrics .....                                      | 23          |
| PCC Finishing Products .....                              | 25          |
| PCC Curing Materials .....                                | 26          |
| PCC Admixtures .....                                      | 27          |
| Patching Materials .....                                  | 28          |
| Rust Passivators .....                                    | 33          |
| Structural Paints .....                                   | 35          |
| Soil Treatments .....                                     | 36          |
| Soil Sterilization and Weed Control Materials .....       | 38          |
| Traffic Marking Materials .....                           | 42          |
| Testing and Construction Equipment .....                  | 44          |
| Waterproofing Membranes and Materials .....               | 46          |
