FOREWORD

This report is one of two related periodic publications of airline statistics which are compiled by the Civil Aeronautics Board, as follows:

Air Carrier Traffic Statistics
(issued monthly)

Air Carrier Financial Statistics
(issued quarterly)

The data herein are classified in two broad operation categories; namely, "domestic" and "international and territorial." In general, "domestic" encompasses operations within the 50 states of the United States and the District of Columbia, and "international and territorial" principally encompasses operations outside the 50 states.

"Domestic" comprises the domestic operations of the trunk and all-cargo carriers; the local service, helicopter, intra-Alaska, and intra-Hawaii carriers; and others. "International and territorial" comprises those operations for both the passenger/cargo and the all-cargo carriers, as described in the preceding paragraph.

The data presented here are of two kinds: (a) basic figures taken directly from carrier reports on CAB Form 41 and (b) derived figures calculated from the basic ones (totals, averages, percentages, etc.). The 12-month basic data shown in Table 1 in this report are the totals of amounts reported by the carriers for each of the four quarters of the year rather than the totals as reported for the 12-months to date. There are occasional differences between the two sets of figures which remain to be resolved with the carriers concerned. Corrections to CAB Form 41, which have been authorized by the carriers, have been incorporated in this report, and obvious errors in reported data have been corrected. Background data given in the Footnotes following each table are obtained from CAB sources. All basic data are shown here rounded to the nearest thousand. The symbol = denotes a reported amount less than 500.

"Earnings Position and Average Investment" data here-to-fore presented in Table 2 have been discontinued to facilitate more timely release of this publication. Similar data for most certificated route carriers are now presented in the Board's "Interim Financial Report" issued quarterly.

It should be noted that the income for any carrier which may be on an open mail rate is subject to future upward or downward adjustment.

Suggestions from users for improving either the scope, presentation, or utility of this report are invited. It will also be appreciated if discrepancies and errors in the data are called to the attention of the Statistical Data Division of the Bureau of Accounts and Statistics.

The contents of this quarterly report are the responsibility of the staff of the Bureau of Accounts and Statistics, and do not necessarily reflect the official views or opinions of the Civil Aeronautics Board.
